

Pre-Send Audit Exposure Quiz

Turn quiz responses into a practical CAM audit exposure action list.

Phone Summary

- Use this when you need to turn quiz responses into a practical CAM audit exposure action list.
- Start with the first two checks on your phone. Finish the workbook or packet on desktop.
- Keep the lease excerpt, GL export, rent roll, and reviewer approval with the final file.
- Next step: run the same check in CapVeri during a 30-day trial.

Best use audit risk self-assessment	Resource type PDF	Review time 15-30 minutes
---	-----------------------------	-------------------------------------

This resource is an operational aid, not legal advice. Confirm final CAM billing positions with the governing lease and counsel where required.

Practical Review Workflow

Step	Checkpoint	What good looks like
1	Answer the five exposure questions	Score lease clarity, variance size, exclusions, documentation, and tenant history.
2	Total the exposure score	Use the score band to decide whether to send, review, or escalate before statements go out.
3	Write one mitigation action	Document the specific backup or lease citation that would reduce each high-risk answer.
4	Assign an owner	Route accounting, asset management, or counsel follow-up before the tenant receives the package.
5	Retest after remediation	Update the score after backup is attached and exceptions are resolved.

Quiz Questions

- Is any recoverable expense category missing a clear lease citation?
- Did total recoverable CAM increase more than 10% from the prior year?
- Are exclusions, caps, or gross-up provisions manually adjusted outside the workbook?
- Would a tenant auditor be able to trace the balance due from source reports?
- Has this tenant disputed CAM or requested backup in the past two years?

Score Bands

- 0-3 points: low exposure; send after normal reviewer sign-off.
- 4-7 points: medium exposure; add variance notes and source support before sending.
- 8+ points: high exposure; escalate exceptions before the tenant package goes out.

Action Log

- For every yes answer, write the owner, mitigation, evidence location, and due date.
- Retain the final score with the reconciliation approval packet.

Quality Gate

- Before sending, confirm the workbook or packet ties to source reports, lease authority, reviewer initials, and a dated final archive copy.
- Escalate unresolved exclusions, manual overrides, legal interpretation, or tenant-specific concessions before relying on the output.

CapVeri Follow-Up

- Use CapVeri when you need deterministic CAM math, lease-aware validation, and audit-ready export packages across a portfolio.
- Start a 30-day trial at <https://app.capveri.com/auth/register>.
