

Tenant CAM Statement Outline

Use a structured tenant statement layout with transparent support sections.

Phone Summary

- Use this when you need to use a structured tenant statement layout with transparent support sections.
- Start with the first two checks on your phone. Finish the workbook or packet on desktop.
- Keep the lease excerpt, GL export, rent roll, and reviewer approval with the final file.
- Next step: run the same check in CapVeri during a 30-day trial.

Best use statement template	Resource type PDF	Review time 15-30 minutes
---------------------------------------	-----------------------------	-------------------------------------

This resource is an operational aid, not legal advice. Confirm final CAM billing positions with the governing lease and counsel where required.

Practical Review Workflow

Step	Checkpoint	What good looks like
1	Summarize the tenant position	Show prior estimates, actual share, credits, balance due, and payment instructions.
2	Disclose pool totals	Break out recoverable taxes, insurance, utilities, maintenance, admin, and excluded costs.
3	Show allocation math	Present denominator, tenant square feet, pro-rata share, caps, and gross-up adjustments.
4	Explain variances	Write tenant-ready notes for material year-over-year changes.
5	Attach support index	Reference source reports without overwhelming the tenant-facing statement.

Statement Sections

- Tenant summary: estimates paid, actual CAM share, credits, and balance due.
- Pool detail: recoverable expenses by category with exclusions shown separately.
- Calculation bridge: denominator, share, caps, gross-up, admin fee, and final adjustment.

Tenant-Ready Variance Notes

- Explain material tax, insurance, utility, snow removal, security, or contract changes.
- Avoid internal account codes without a plain-English label.

Audit Trail

- Store source reports and approval notes even when the tenant-facing package is concise.

Quality Gate

- Before sending, confirm the workbook or packet ties to source reports, lease authority, reviewer initials, and a dated final archive copy.
- Escalate unresolved exclusions, manual overrides, legal interpretation, or tenant-specific concessions before relying on the output.

CapVeri Follow-Up

- Use CapVeri when you need deterministic CAM math, lease-aware validation, and audit-ready export packages across a portfolio.
- Start a 30-day trial at <https://app.capveri.com/auth/register>.
