

MRI Recovery Billing Error Checklist

Validate MRI recovery billing exports and tenant setup before reconciliation.

Phone Summary

- Use this when you need to validate MRI recovery billing exports and tenant setup before reconciliation.
- Start with the first two checks on your phone. Finish the workbook or packet on desktop.
- Keep the lease excerpt, GL export, rent roll, and reviewer approval with the final file.
- Next step: run the same check in CapVeri during a 30-day trial.

Best use MRI recovery billing QA	Resource type PDF	Review time 15-30 minutes
--	-----------------------------	-------------------------------------

This resource is an operational aid, not legal advice. Confirm final CAM billing positions with the governing lease and counsel where required.

Practical Review Workflow

Step	Checkpoint	What good looks like
1	Validate MRI export scope	Confirm entity, lease, recovery group, period, and book filters before export.
2	Review recovery setup	Compare MRI recovery billing settings to lease caps, exclusions, and admin fees.
3	Tie rent roll denominator	Check occupied, rentable, and excluded square footage against the rent roll.
4	Inspect exception tenants	Review anchor tenants, fixed CAM deals, base-year leases, and manual overrides.
5	Archive export package	Store MRI source reports with the final tenant billing package.

MRI Export Checks

- Validate entity, lease, recovery group, period, and book before running reports.
- Tie MRI recovery billing totals to the source GL and rent roll denominator.

Tenant Setup Review

- Review manual overrides, anchors, base-year tenants, fixed CAM tenants, and capped leases.
- Confirm admin fee, tax, insurance, and utility settings match the lease.

Close Package

- Archive raw MRI exports and final tenant statements together.

Quality Gate

- Before sending, confirm the workbook or packet ties to source reports, lease authority, reviewer initials, and a dated final archive copy.
- Escalate unresolved exclusions, manual overrides, legal interpretation, or tenant-specific concessions before relying on the output.

CapVeri Follow-Up

- Use CapVeri when you need deterministic CAM math, lease-aware validation, and audit-ready export packages across a portfolio.
- Start a 30-day trial at <https://app.capveri.com/auth/register>.
