

Yardi Export Error Checklist

Validate Yardi GL and rent roll exports before CAM reconciliation work begins.

Phone Summary

- Use this when you need to validate Yardi GL and rent roll exports before CAM reconciliation work begins.
- Start with the first two checks on your phone. Finish the workbook or packet on desktop.
- Keep the lease excerpt, GL export, rent roll, and reviewer approval with the final file.
- Next step: run the same check in CapVeri during a 30-day trial.

Best use Yardi export QA	Resource type PDF	Review time 15-30 minutes
------------------------------------	-----------------------------	-------------------------------------

This resource is an operational aid, not legal advice. Confirm final CAM billing positions with the governing lease and counsel where required.

Practical Review Workflow

Step	Checkpoint	What good looks like
1	Export complete GL detail	Pull Yardi accounts, properties, dates, books, and descriptions for the full recovery period.
2	Tie to trial balance	Reconcile export totals to Yardi financial statements before mapping pools.
3	Validate account mapping	Separate recoverable, excluded, capital, tax, insurance, and utility accounts.
4	Check tenant setup	Compare Yardi lease recovery setup to signed lease terms and amendments.
5	Lock source files	Save raw exports so reviewers can reproduce the reconciliation.

Yardi Export Checks

- Confirm property, book, period, account range, and recovery account filters before exporting.
- Tie Yardi export totals to the financial statement or trial balance.

Mapping Review

- Flag excluded accounts, capital items, tax, insurance, utilities, and admin fee bases separately.
- Compare Yardi recovery setup against lease abstract fields before billing.

Audit Trail

- Store raw Yardi exports, mapping decisions, and reviewer sign-off with the reconciliation.

Quality Gate

- Before sending, confirm the workbook or packet ties to source reports, lease authority, reviewer initials, and a dated final archive copy.
- Escalate unresolved exclusions, manual overrides, legal interpretation, or tenant-specific concessions before relying on the output.

CapVeri Follow-Up

- Use CapVeri when you need deterministic CAM math, lease-aware validation, and audit-ready export packages across a portfolio.
- Start a 30-day trial at <https://app.capveri.com/auth/register>.
