

Audit Defense Packet Builder

Assemble a tenant-audit defense packet with calculations, support, and sign-offs.

Phone Summary

- Use this when you need to assemble a tenant-audit defense packet with calculations, support, and sign-offs.
- Start with the first two checks on your phone. Finish the workbook or packet on desktop.
- Keep the lease excerpt, GL export, rent roll, and reviewer approval with the final file.
- Next step: run the same check in CapVeri during a 30-day trial.

Best use audit defense packet	Resource type PDF	Review time 15-30 minutes
---	-----------------------------	-------------------------------------

This resource is an operational aid, not legal advice. Confirm final CAM billing positions with the governing lease and counsel where required.

Practical Review Workflow

Step	Checkpoint	What good looks like
1	Create evidence index	List each source file needed to defend CAM billing under the lease.
2	Trace the calculation	Show GL total, pool mapping, denominator, tenant share, caps, and credits.
3	Document judgments	Explain exclusions, capital treatment, gross-up, and admin fee decisions.
4	Assign reviewers	Capture accounting, asset management, and legal approvals where needed.
5	Package the response	Prepare a clean tenant-audit folder with version-controlled support.

Defense Packet Tabs

- Lease authority, source reports, pool mapping, calculation trace, correspondence, and reviewer approvals.
- Keep the packet tenant-specific so support is easy to inspect.

High-Risk Evidence

- Excluded expense decisions, gross-up assumptions, cap treatment, denominator changes, and admin fee base.

Audit Caveat

- This resource organizes support; legal strategy and privilege decisions should be reviewed with counsel.

Quality Gate

- Before sending, confirm the workbook or packet ties to source reports, lease authority, reviewer initials, and a dated final archive copy.
- Escalate unresolved exclusions, manual overrides, legal interpretation, or tenant-specific concessions before relying on the output.

CapVeri Follow-Up

- Use CapVeri when you need deterministic CAM math, lease-aware validation, and audit-ready export packages across a portfolio.
- Start a 30-day trial at <https://app.capveri.com/auth/register>.
