Phone Summary

- Start with the first two checks on your phone. Finish the workbook or packet on desktop.
- Keep the lease excerpt, GL export, rent roll, and reviewer approval with the final file.
- Next step: run the same check in CapVeri during a 30-day trial.

This resource is an operational aid, not legal advice. Confirm final CAM billing positions with the governing lease and counsel where required.

Practical Review Workflow

Step	Checkpoint	What good looks like
1	Acknowledge the tenant issue	Confirm receipt, deadline, disputed categories, and any audit-right language.
2	Map each objection	Tie every tenant claim to a lease clause, source report, invoice, or calculation schedule.
3	Separate conceded items	Remove or credit confirmed errors without weakening supported recoveries.
4	Prepare evidence bundle	Attach GL detail, pool mapping, rent roll, invoices, and reviewer notes.
5	Close with next step	State the proposed resolution, response date, and escalation path.

Response Outline

- Thank the tenant, identify the disputed period, and reserve all lease rights.
- Answer each objection in a table with landlord position, support, and proposed resolution.
- Separate accepted corrections from items supported by the governing lease.

Evidence Checklist

- Signed lease excerpt, amendment history, GL detail, invoices, rent roll, denominator support, and prior credits.
- Internal reviewer sign-off for settlement offers or material concessions.

Suggested Closing

- Offer a meeting, state the payment or credit next step, and give a response deadline.

Quality Gate

- Before sending, confirm the workbook or packet ties to source reports, lease authority, reviewer initials, and a dated final archive copy.
- Escalate unresolved exclusions, manual overrides, legal interpretation, or tenant-specific concessions before relying on the output.
