

CAM Estimate / Budget Letter

Send next-year CAM estimates with budget assumptions and variance explanations.

Phone Summary

- Use this when you need to send next-year CAM estimates with budget assumptions and variance explanations.
- Start with the first two checks on your phone. Finish the workbook or packet on desktop.
- Keep the lease excerpt, GL export, rent roll, and reviewer approval with the final file.
- Next step: run the same check in CapVeri during a 30-day trial.

Best use estimate communication	Resource type PDF	Review time 15-30 minutes
---	-----------------------------	-------------------------------------

This resource is an operational aid, not legal advice. Confirm final CAM billing positions with the governing lease and counsel where required.

Practical Review Workflow

Step	Checkpoint	What good looks like
1	State the new estimate	Show the monthly and annual estimated CAM amount and effective date.
2	Explain budget assumptions	Summarize tax, insurance, utilities, contract, and occupancy drivers.
3	Tie to lease authority	Reference the lease section that permits estimates and later true-up.
4	Show variance context	Compare prior estimate, current estimate, and expected reconciliation effect.
5	Give tenant next steps	Include payment timing, contact, and expected year-end reconciliation schedule.

Estimate Letter Blocks

- New monthly estimate, annualized amount, effective date, and payment start.
- Budget assumptions by category: taxes, insurance, utilities, contracts, occupancy.
- True-up reminder explaining how estimates reconcile against actuals.

Variance Explanation Prompts

- What changed in the tax assessment or appeal status?
- Which insurance, utility, or service contracts reset?
- Which costs are non-controllable under the lease?

Approval Notes

- Retain budget owner approval and final tenant notice copy.

Quality Gate

- Before sending, confirm the workbook or packet ties to source reports, lease authority, reviewer initials, and a dated final archive copy.
- Escalate unresolved exclusions, manual overrides, legal interpretation, or tenant-specific concessions before relying on the output.

CapVeri Follow-Up

- Use CapVeri when you need deterministic CAM math, lease-aware validation, and audit-ready export packages across a portfolio.
- Start a 30-day trial at <https://app.capveri.com/auth/register>.
