

CAM Pre-Send Packet Checklist

Confirm every tenant packet has calculation support before distribution.

Phone Summary

- Use this when you need to confirm every tenant packet has calculation support before distribution.
- Start with the first two checks on your phone. Finish the workbook or packet on desktop.
- Keep the lease excerpt, GL export, rent roll, and reviewer approval with the final file.
- Next step: run the same check in CapVeri during a 30-day trial.

Best use pre-send close package	Resource type PDF	Review time 15-30 minutes
---	-----------------------------	-------------------------------------

This resource is an operational aid, not legal advice. Confirm final CAM billing positions with the governing lease and counsel where required.

Practical Review Workflow

Step	Checkpoint	What good looks like
1	Confirm packet inventory	Verify each tenant packet includes statement, variance notes, and support index.
2	Check calculation trace	Confirm every balance due ties from GL pool to denominator to tenant share.
3	Review exception log	Attach approvals for exclusions, caps, credits, gross-up, and admin fee treatment.
4	Validate delivery list	Match tenant contacts, notice addresses, and email recipients to lease records.
5	Archive final copy	Store the sent packet and reviewer sign-off before distribution.

Packet Completeness

- Tenant statement, variance notes, calculation summary, support index, and delivery contact are present.
- No packet leaves accounting without an owner and final reviewer sign-off.

Calculation Trace

- Every tenant balance ties from GL export to pool mapping to denominator to final amount due.
- Caps, credits, fixed CAM, gross-up, and admin fee decisions are separately documented.

Send Controls

- Use the checklist before email or portal distribution and archive a final sent copy.

Quality Gate

- Before sending, confirm the workbook or packet ties to source reports, lease authority, reviewer initials, and a dated final archive copy.
- Escalate unresolved exclusions, manual overrides, legal interpretation, or tenant-specific concessions before relying on the output.

CapVeri Follow-Up

- Use CapVeri when you need deterministic CAM math, lease-aware validation, and audit-ready export packages across a portfolio.
- Start a 30-day trial at <https://app.capveri.com/auth/register>.
