

Multi-State CAM Packet Review Checklist

Compare CAM notice, support, and counsel-review needs across state-specific packages.

Phone Summary

- Use this when you need to compare CAM notice, support, and counsel-review needs across state-specific packages.
- Start with the first two checks on your phone. Finish the workbook or packet on desktop.
- Keep the lease excerpt, GL export, rent roll, and reviewer approval with the final file.
- Next step: run the same check in CapVeri during a 30-day trial.

Best use multi-state disclosure review	Resource type PDF	Review time 15-30 minutes
--	-----------------------------	-------------------------------------

This resource is an operational aid, not legal advice. Confirm final CAM billing positions with the governing lease and counsel where required.

Practical Review Workflow

Step	Checkpoint	What good looks like
1	List covered states	Identify each property state and any local disclosure or timing review needs.
2	Map required support	Track estimate, actual, tax, insurance, admin, and reconciliation support by state.
3	Add counsel notes	Record legal review status for tenant notices and disclosure language.
4	Compare packet gaps	Flag properties missing state-specific backup or notice evidence.
5	Finalize send approval	Confirm state-sensitive packages are approved before tenant delivery.

Matrix Columns

- State, property, lease type, estimate notice, actual reconciliation, tax support, insurance support, and counsel review.
- Use status values for missing, draft, reviewed, and approved.

Disclosure Caveat

- This matrix is an operational tracker, not legal advice. Confirm state-specific requirements with counsel.

Portfolio Workflow

- Review state-sensitive packets before tenant delivery and keep evidence with the final package.

Quality Gate

- Before sending, confirm the workbook or packet ties to source reports, lease authority, reviewer initials, and a dated final archive copy.
- Escalate unresolved exclusions, manual overrides, legal interpretation, or tenant-specific concessions before relying on the output.

CapVeri Follow-Up

- Use CapVeri when you need deterministic CAM math, lease-aware validation, and audit-ready export packages across a portfolio.
- Start a 30-day trial at <https://app.capveri.com/auth/register>.
